Press Release

March 26, 2008 Eastpointe, MI

Alternate Energy Solutions to begin avian study for client in western Michigan.

We are pleased to announce that the company has begun an extensive avian study for a client's wind power project development in western Michigan.

The study will be conducted by recognized professionals in the wildlife and biological scientific disciplines and is scheduled to begin with the spring migration period. Technicians will conduct an extensive investigation; their study will begin on April 1, 2008 and will focus on avian identification, flight patterns and migratory counts. A second study is planned for the fall migration period.

Alternate Energy Solutions is a Michigan company specializing in development of renewable energy utilizing wind turbines, solar thermal collection and geothermal systems. Company services to clients include fatal-flaw analysis, wind testing and mapping, electrical system design and component specification, system operation, training and maintenance.
