Press Release

June 30, 2007 Canada

Wind Turbine Manufacturer signs Memorandum of Understanding with Alternate Energy Solutions, Inc.

After several months of discussion and careful evaluation, Alternate Energy Solutions has signed a Memorandum of Understanding with a well recognized, international, wind turbine manufacturing company. The manufacturing concern is operating in the North American and European renewable energy market. The manufacturer has a long track record of producing high-quality, utility-scale wind turbines.

Under the scope of the Memorandum of Understanding, the parties will focus on community based wind project developments, educational institutions and municipal authorities. Alternate Energy Solutions will become a factory certified developer, installer and service provider for the Original Equipment Manufacturer's (OEM) products.

Commenting on the news, company president John Wolar said, "Alternate Energy Solutions has been working constructively within the electrical power and wind industries to develop solid networks and business associations. We are grateful to have been recognized by our new manufacturing associate. We will represent the manufacturer and their products, in a professional manner, to prospective clients, when the products are deemed appropriate for project development consideration."

Alternate Energy Solutions is a Michigan company specializing in development of renewable energy utilizing wind turbines, solar thermal collection and geothermal systems. Company services to clients include fatal-flaw analysis, wind testing and mapping, electrical system design and component specification, system operation, training and maintenance.
