### **Press Release**

September 28, 2007 Eastpointe

#### **A Michigan educational institution and leading architectural firm select Alternate Energy Solutions to conduct wind monitoring and feasibility study.**

Management would like to report that Alternate Energy Solutions received notification that a recent proposal submitted to large Michigan school district has been accepted. The company was asked to investigate the local wind resource and to offer recommendations for approximately 2MW of wind generation. The company will monitor and collect wind data, conduct a project feasibility study, and prepare a business plan for the district's administrators and architectural consultants. Metering is scheduled to begin during the month of October.

Alternate Energy Solutions is a Michigan company specializing in development of renewable energy utilizing wind turbines, solar thermal collection and geothermal systems. Company services to clients include fatal-flaw analysis, wind testing and mapping, electrical system design and component specification, system operation, training and maintenance.
